Tasks: Basic Data exploration and analysis		
	Answers	
1. Sum,Count and Average		
Perform the following calculations using Excel functions:		
Calculate the total price of all products in the dataset.	10100	
Determine how many products exist in the dataset.	34	
Calculate the average price of the products.	297.0588235	
2. Minimum and Maximum Values		
Using Excel functions:		
Identify the minimum price among all products	30	
Identify the maximum price among all products.	1000	
3. Logical Function – IF		
Create a new column named Price Range	created using power query	
Use the IF function to categorize products based on their price:		
○ If Price ≥ $500 → classify as High Price		
○ If Price < $500 → classify as Standard Price		
4. Conditional Functions – SUMIF and COUNTIF		
Perform the following conditional calculations:		
● Use the SUMIF function to calculate the total price of products in the	8050	SUMI ($)])
Electronics category.		
● Use the COUNTIF function to determine the number of products with a price	11	
less than $100.		
5. Text Formatting – LEFT, RIGHT, MID		
● Use text functions to extract information from the Product ID column.	created using power query	
● Create the following new columns:		
○ Create a new column named Day with the first 2 characters of each		
'Product ID' using the LEFT function.	DAY

	ES	
	CA	
	CA	
	CA	
	CA	
	IN	
	FR	

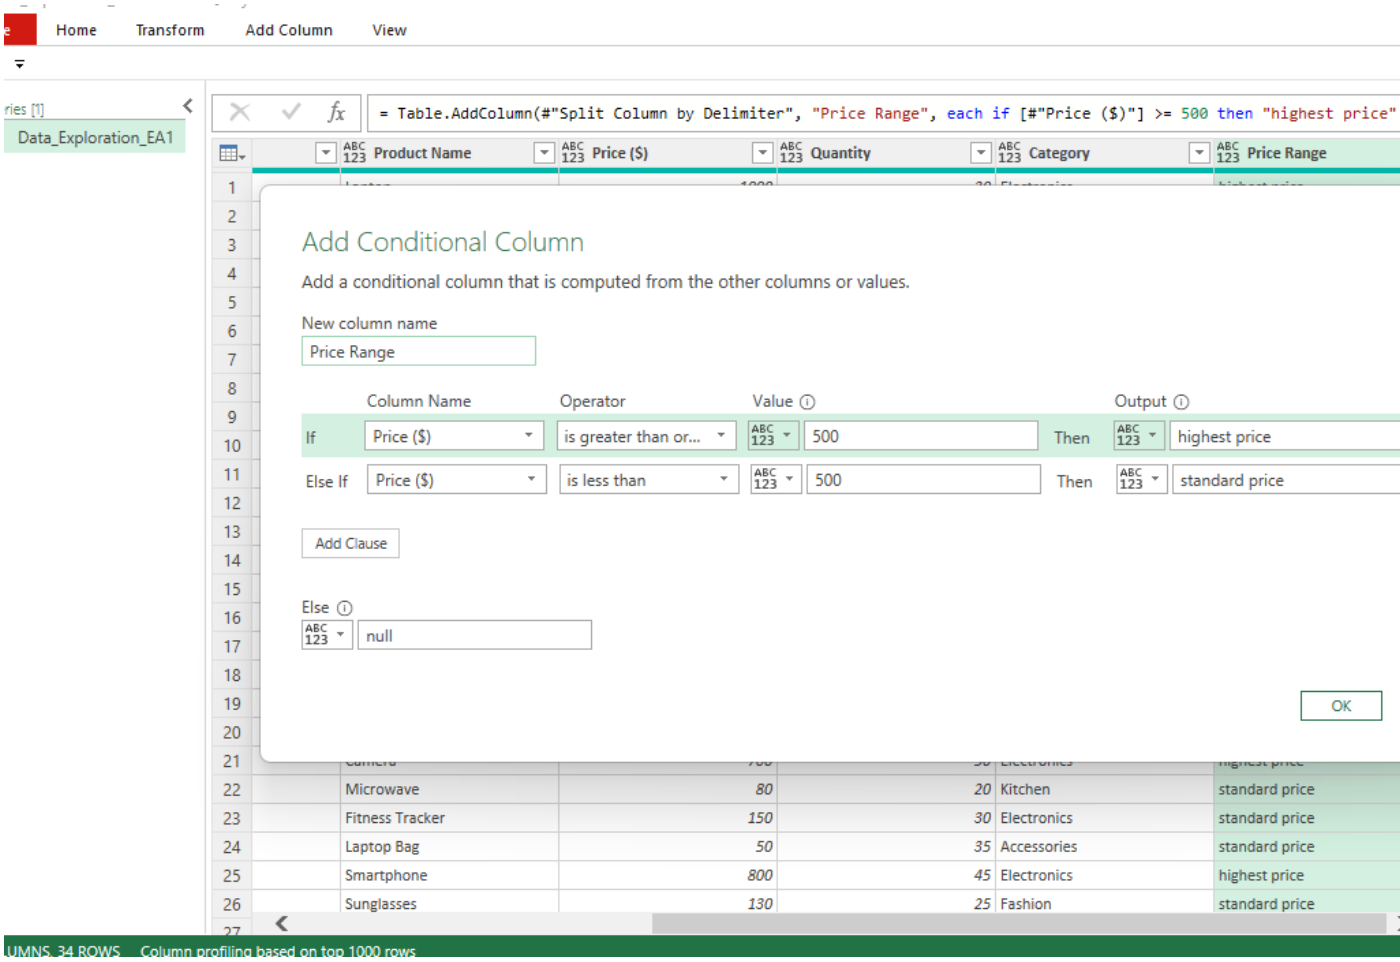

3. Logical Function – IF

● Create a new column named Price Range.

● Use the IF function to categorize products based on their price:

○ If Price ≥ $500 → classify as High Price

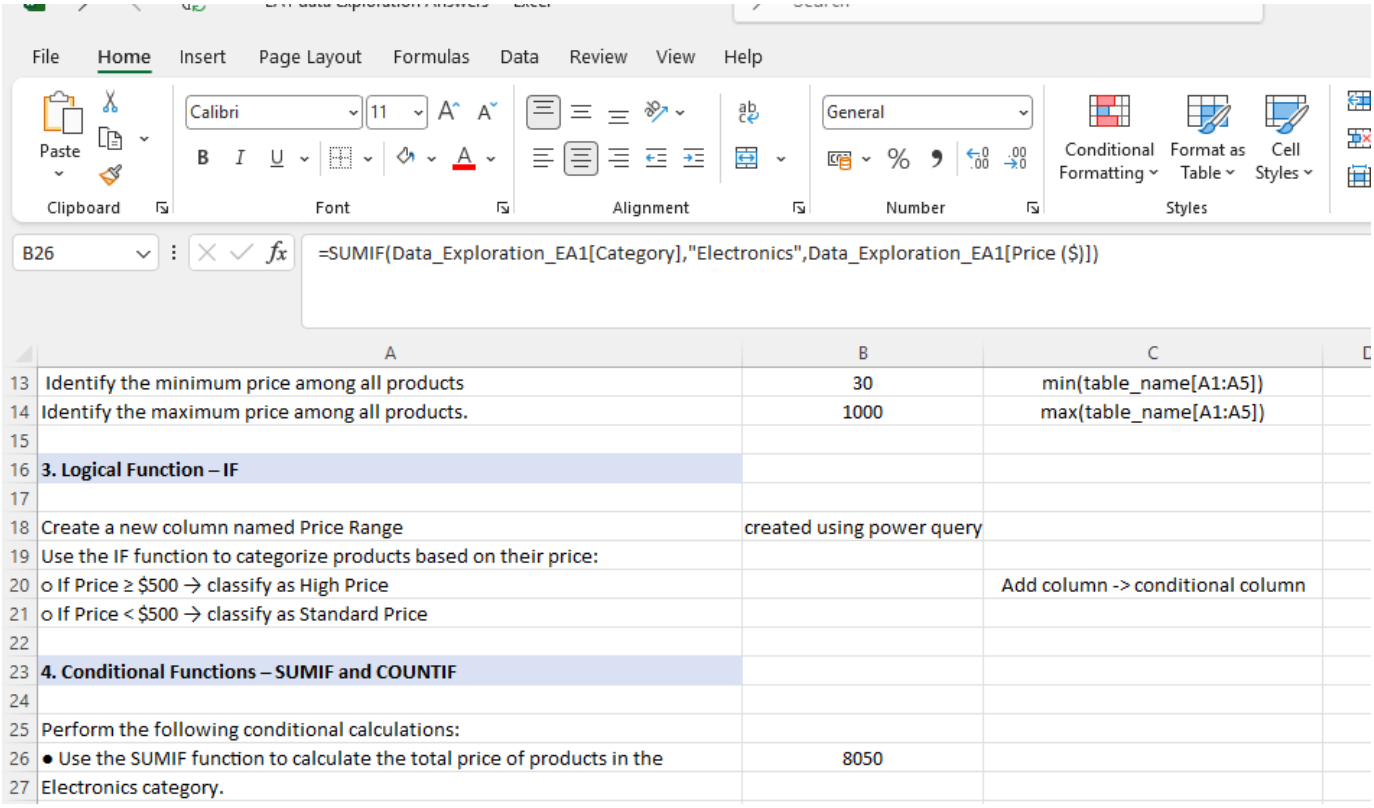

○ If Price < $500 → classify as Standard Price

4. Conditional Functions – SUMIF and COUNTIF

Perform the following conditional calculations:

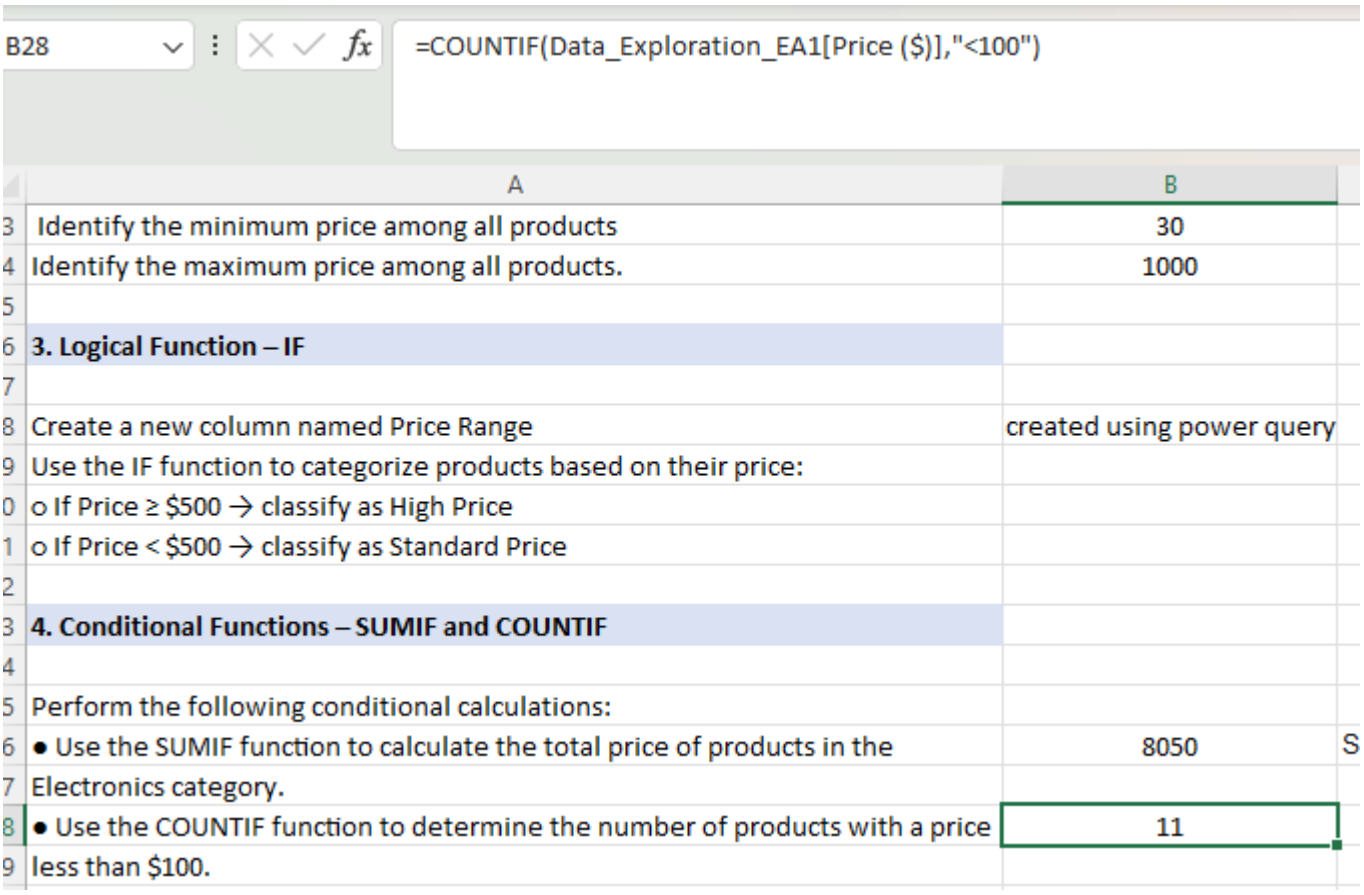

● Use the SUMIF function to calculate the total price of products in the Electronics category.

	A	B	C
13	Identify the minimum price among all products	30	min(table_name[A1:A5])
14	Identify the maximum price among all products.	1000	max(table_name[A1:A5])
15			
16	**3. Logical Function – IF**		
17			
18	Create a new column named Price Range	created using power query	
19	Use the IF function to categorize products based on their price:		
20	o If Price ≥ $500 → classify as High Price		Add column -> conditional column
21	o If Price < $500 → classify as Standard Price		
22			
23	**4. Conditional Functions – SUMIF and COUNTIF**		
24			
25	Perform the following conditional calculations:		
26	• Use the SUMIF function to calculate the total price of products in the	8050	
27	Electronics category.		

● Use the COUNTIF function to determine the number of products with a price

less than $100.

	A	B
3	Identify the minimum price among all products	30
4	Identify the maximum price among all products.	1000
5		
6	**3. Logical Function – IF**	
7		
8	Create a new column named Price Range	created using power query
9	Use the IF function to categorize products based on their price:	
10	o If Price ≥ $500 → classify as High Price	
11	o If Price < $500 → classify as Standard Price	
12		
13	**4. Conditional Functions – SUMIF and COUNTIF**	
14		
15	Perform the following conditional calculations:	
16	• Use the SUMIF function to calculate the total price of products in the	8050
17	Electronics category.	
18	• Use the COUNTIF function to determine the number of products with a price	11
19	less than $100.	

5. Text Formatting – LEFT, RIGHT, MID

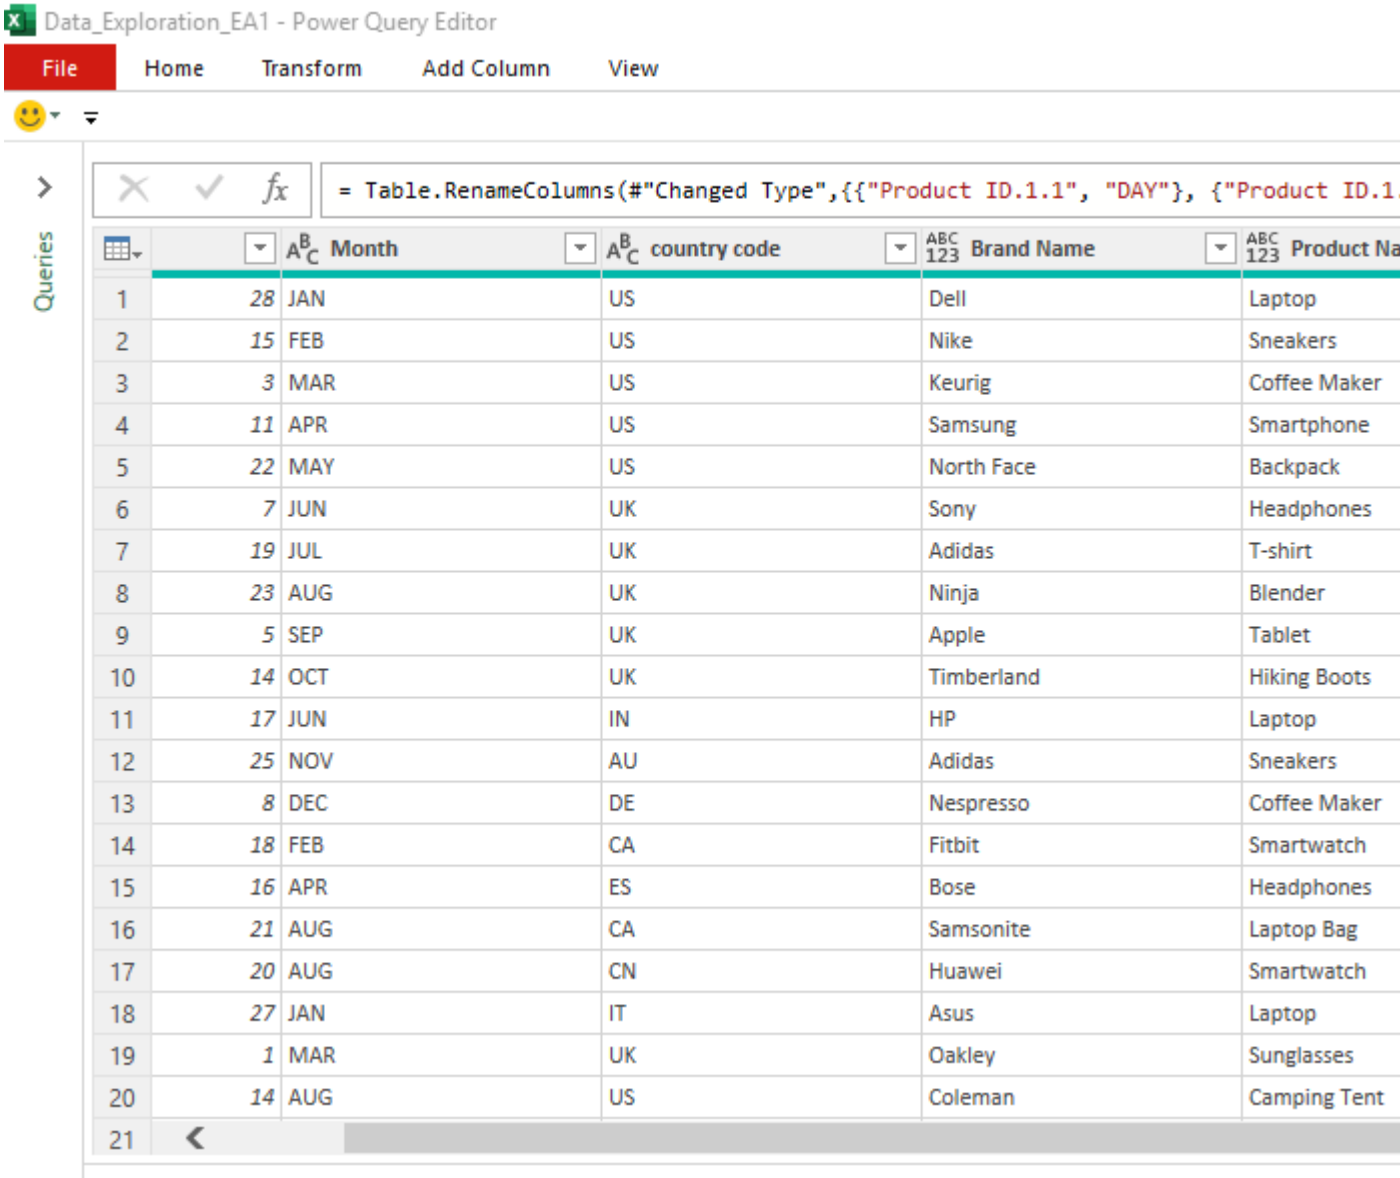

● Use text functions to extract information from the Product ID column.

● Create the following new columns:

○ Create a new column named Day with the first 2 characters of each 'Product ID' using the LEFT function.

○ Create a new column named Country Code by extracting the last 2 characters from the 'Product ID' column using the RIGHT function.

○ Create a new column named Month by extracting the 4th to 6th characters from the 'Product ID' column using the MID function.

		Month	country code	Brand Name	Product Na
1	28	JAN	US	Dell	Laptop
2	15	FEB	US	Nike	Sneakers
3	3	MAR	US	Keurig	Coffee Maker
4	11	APR	US	Samsung	Smartphone
5	22	MAY	US	North Face	Backpack
6	7	JUN	UK	Sony	Headphones
7	19	JUL	UK	Adidas	T-shirt
8	23	AUG	UK	Ninja	Blender
9	5	SEP	UK	Apple	Tablet
10	14	OCT	UK	Timberland	Hiking Boots
11	17	JUN	IN	HP	Laptop
12	25	NOV	AU	Adidas	Sneakers
13	8	DEC	DE	Nespresso	Coffee Maker
14	18	FEB	CA	Fitbit	Smartwatch
15	16	APR	ES	Bose	Headphones
16	21	AUG	CA	Samsonite	Laptop Bag
17	20	AUG	CN	Huawei	Smartwatch
18	27	JAN	IT	Asus	Laptop
19	1	MAR	UK	Oakley	Sunglasses
20	14	AUG	US	Coleman	Camping Tent
21
